PROFILE

Skilled Software Development Engineer / Full Stack Developer with **1+ year** expertise in building scalable, high-performance web applications. Strong experience with **React.js, JavaScript, Typescript and Next.js** for creating responsive, user-focused interfaces, and backend development using **Java, Spring Boot, Python and MySQL**. Proven ability to optimize performance, reduce latency, build real-time solutions, and solve complex edge cases while delivering clean, maintainable code.

EDUCATION

Christ University, Bangalore

Jul 2023 – May 2025

Master of Computer Applications, Computer Applications – 73%

Kristu Jayanti Autonomous College, Bangalore

Aug 2020 – May 2023

Bachelor of Computer Applications, Computer Applications – 83%

WORK EXPERIENCE

Shoffr, Bangalore

Jan 2025 – Present

— *Software Development Engineer* (NextJS, TypeScript, MySQL, Spring Boot, Tailwind CSS, Redux ,Thymleaf ,Javascript)

- Optimized **trip prioritization algorithms**, reducing manual admin operational processing by **75%**.
- Architected **multi-traveler and co-passenger capabilities** to streamline **high-volume booking workflows**.
- Executed **CSV-driven reconciliation processes**, improving financial accuracy by **60%**.
- Standardized global **time-zone handling** using **Moment.tz** for consistent cross-region data rendering.
- Enabled real-time **backend–frontend synchronization**, reducing latency and maintaining consistent trip states.
- Launched a **B2B partnership webpage**, growing inbound corporate inquiries from **15 to 40** per month.
- Integrated **Paytm Link APIs** with scheduler-based verification, reducing payment validation failures by **76%**.
- Developed an **operations ticketing system**, reducing resolution time by **65%** and improving driver issue tracking.
- Automated **flight-delay processing**, improving ops scheduling efficiency by **85%** and enabling proactive guest notifications.
- Implemented **Saved Address APIs** and frontend with **Redux** to simplify **user address management**.
- Rolled out **RabbitMQ event automation** for dependable real-time **trip cancellation notifications**.

ICIER, Bangalore

May 2024 – Aug 2024

— *Junior Software Development Intern*(MongoDB, ExpressJS, ReactJS, NodeJS, Tailwind CSS)

- Developed **scalable MERN applications** using modular OOP-based JavaScript for a maintainable architecture.
- Designed **responsive React.js interfaces** and built **RESTful APIs** with Express.js and Node.js for seamless communication.
- Delivered an **event management platform** with a modern UI using **lazy loading** and **custom hooks** to improve performance.

PROJECTS

Unishare — MongoDB, ExpressJS, ReactJS, NodeJS, Tailwind CSS, Socket.IO

Apr 2024

- Created a web platform enabling **users to borrow, lend, and share resources** within a college community.
- Designed an **admin approval dashboard** to efficiently manage users, listings, and transactions.
- Engineered a **real-time messaging system** using **WebSockets** and **Socket.IO** for low-latency communication.
- Strengthened security by implementing **data encryption, input validation, and secure storage practices**.

Intervo — MongoDB, ExpressJS, ReactJS, NodeJS, Flask, Python

Jul 2024

- Streamlined **interview workflows** to eliminate manual scheduling and tracking overhead.
- Introduced **random question generation** and **proctoring capabilities** to enable secure assessments.
- Generated **automated credentials from CSV files** using **Nodemailer** for seamless onboarding.
- Devised an **algorithm-driven scheduling engine** in **Python** based on interviewer availability.

CERTIFICATES

Java Foundation Course: **Oracle Academy (2025)**

AWS Academy Cloud Foundations: **AWS Academy (2025)**

SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, TypeScript, SQL, HTML, CSS, Go

Frameworks & Libraries: React.js, Node.js, Tailwind CSS, Spring Boot, Next.js, Thymeleaf, Redux

Databases & Cloud: MongoDB, MySQL, AWS EC2

Developer Tools & Messaging: VS Code, Git, Postman, Docker, RabbitMQ

Core Computer Science: Data Structures & Algorithms, Problem Solving

Language: English, Hindi, Malayam, Marathi, Kannada, Tamil

ACHIEVEMENTS

- Achieved **1st Place** in **Treasure Hunt Shells 2024** at **Kristu Jayanti Autonomous College**.
- Awarded **3rd Place** in **Gyanith 2024 Hackathon** at **NIT Puducherry**.
- Awarded **3rd Place** in **Gyanith 2024 Code Hunt** at **NIT Puducherry**.
